| Hispanic | 5 | 2 | 9 | 8 | 7 |
| Other | 10 | 4 | 9 | 7 | 10 |

Source: Tennessee enhanced HIV/AIDS Reporting System (eHARS), accessed June 30, 2017.

Deaths among persons with diagnosis of HIV in TN refers to deaths among persons who resided in TN at the time of death.

% is percentage of each subgroup; percentages for subgroups with less than 10 (e.g., transgender individuals) should be interpreted with caution.

Transgender is defined as an umbrella term for persons whose gender identity or expression is different from sex at birth. For more www.cdc.gov/lgbthealth/transgender.

Hispanics can be of any race.

Regional-level and county-level data available upon request.
